Extract of Journal

Office of Legislative Counsel

Tuesday - 20 November 1973

I briefed McConnell on the inquiry we had received from Mark Bender, Congressional Quarterly, for our views on three questions he posed regarding the Agency's relationships with the Congress and the impact of such things as the Bay of Pigs, ITT/Chile, and the Watergate. I told McConnell that Bill Colby preferred not to have us speak to Bender for the record on this subject, but I provided McConnell with some material we had prepared which he might want to use in any future conversations he might have with Bender on the subject.
